Resident Request Prompts Traffic Safety Improvement

SAN BERNARDINO - An uncontrolled intersection in unincorporated Fontana will have stop signs thanks to a resident who asked the County's Department of Public Works to investigate whether stop signs were needed at the junctions to improve safety.

The Board of Supervisors passed a resolution on Tuesday establishing through highways on Live Oak Avenue at Valencia Avenue and on Valencia Avenue at Windrose Place. The action was necessary to comply with County Code requirements for stop sign placement.

Public Works studied both intersections after receiving a request from a resident and determined that stop signs are necessary because of traffic volumes and view obstructions.

Once stop signs are installed, drivers going east on Country Lane and west on Valencia Avenue will be required to stop before entering or crossing Live Oak Avenue. In addition, drivers going south on Windrose Place will have to stop before entering Valencia Avenue.

“I encourage residents to let the County know about traffic safety issues in their unincorporated neighborhoods,” Second District Supervisor Paul Biane said. “They know these roads better than just about anyone.”
